TOPEKA KANSAS

Season 1921.

Dear Sir:-

On account of the high cost of catalogue paper and other printing materials which enter into the making of a FIRST CLASS SEED CATALOGUE we have decided not to issue one this season.

You will find listed herein all varieties of SEEDS for the FARM, FIELD AND GARDEN, BULBS, PLANTS, ETC.

PRICES this season are much lower than they have been for some time past. This applies to nearly every thing that you need, and we want to say that on account of the GOOD GROWING SEASON crops were fine and the SEEDS we are offering you are the FINEST QUALITY we have ever handled.

We want you to read over each item, and see what a saving you will have. Send us your order early. We expect a big rush for early planting and you can well afford to risk a few seeds in order to get an early crop, as the expense of loss on account of FROSTS will not amount to much in case we do have a late spring and frosts.

On the following pages, 2 and 3, you will find listed all varieties of Garden Seeds; on pages 4 and 5, Flower Seeds, Bulbs, Plants, Seed Potatoes, etc.; on pages 6 and 7 we have listed our Seed Corn and New 65 Day Roasting Ear Corn. By all means you should try them. On page 7 we have listed our Field Seeds and Poultry and Poultry Supplies. On page 8 you will find our Improved Tom Watson Water-Melons, Garden Tools, etc.

PRICES, on all garden Seeds, are Post Paid by us.

On Field Seeds, Seed Potatoes, etc., write us for prices and samples. On account of market conditions prices are changing daily. We issue a regular price current and send it regularly FREE to our customers. SEED POTATOES this season are lower than they have been for some time. Let us quote you on what you want, Local or Car Lots.

SPECIAL. If you are in the market for APPLES, ONIONS, CABBAGE, TABLE POTATOES, NAVY BEANS, CANNED GOODS IN CASE LOTS, SUGAR, ETC., we can save you money on them and can please you.

Trusting to hear from you soon and thanking you for the past Business and trusting we can serve you often, I remain

Yours respectfully,

GENE HAYES, Owner.

HAYES SEED HOUSE--HAYES PRODUCE CO.

N. B.—While we exercise the greatest care to have all seeds, plants and bulbs pure and reliable, we sell none with warranty, expressed or implied, in any respect, and will not in any way be responsible for the crop. If purchaser does not accept seeds on these terms they must be returned at once. All contracts made by us are subject to crop conditions and prices subject to change and further confirmation.

Price per single bulb, 10c; 3 for 25c; 6 for 50c.

MISS MINNIE McCULLOUGH.
 Soft yellow, overlaid with bronze. Valuable for use under artificial light. One of the best varieties for cut flowers.

CORONA (THE CARNATION DAHLIA)
 A miniature decorative form, fully double and of purest white. Its wonderful freedom of bloom, pure color and chaste form places it at once at the head of the list as a florist's flower. At a little distance it would be pronounced a carnation, which it resembles both in size and form.

JACK ROSE (DECORATIVE).
 Very large, flat flower; full to the center. Brilliant crimson. A sturdy grower. Exceedingly fine bloomer; the cut flowers have wonderful lasting qualities. Desirable for exhibition purposes.

OLIVE TRACY (CACTUS).
 Clear canary yellow, a delicate color, produced on long stems, making it a valuable variety for cutting. A very attractive flower.

COUNTESS OF LONSDALE (CACTUS).
 A peculiar but pleasing blending of salmon-pink and amber, early and one of the very best; blooms freely under all conditions.

SOUVENIR—DE GUSTAVE—DOZAN (DECORATIVE)
 Mammoth flowering, yellow, shading to red center.

PRINCESS JULIAN (PEONY FLOWERED).
 Pure white, large flowering, very fine.

SYLVIA.
 Flowers from 4 to 6 inches in diameter; of fine form and full to the center. White, shaded to soft pink on the outer petals. Early and free-blooming.

C. W. BURTON (DECORATIVE).
 Pure yellow, very large and fine flowering.
UNCLE TOM OR KNIGHT (CACTUS).
 Dark maroon, almost black, fine flowering.

PROF. MANSFIELD (DECORATIVE).
 Yellow, bronze, red shading, large flowering.

COUNTRY GIRL.
 Base of petals golden yellow suffused with salmon rose, a bright and pleasant combination of color, difficult to describe. Flowers very large and perfect in form.

TWENTIETH CENTURY.
 Very large rosy-crimson, with white tips and white disc around the yellow center.

CALIFORNIA SHOW.
 Bright, golden yellow, very double and free blooming.

PINK CENTURY (SINGLE).
 Beautiful single pink.

COQUETTE (SHOW).
 Red and white, double, fine flowering.

JAMAICA (SHOW).
 Deep rich purple quilled petals, very fine.

PROGRESS (SHOW).
 Clear, soft rosy lake, beautifully penciled and spotted crimson.

DAHLIAS—Continued

FLORAL PARK JEWEL.

Rich purple red, tipped and striped with white. Sometimes solid color.

A. D. LIVONI.

Beautiful clear pink, quilled petals. The best pink show variety. A splendid cut flower. (Show).

QUEEN VICTORIA.

A fine show variety, with quilled petals and handsomely trimmed flowers. Tall grower. Canary yellow. (Show).

DELICE (DECORATIVE).

This dahlia attained a world-wide popularity in the last year. In color it is a beautiful shade of rosy pink, suffused with lavender-pink. The flowers are medium size, of perfect form, and are produced in profusion on long stems well above the foliage. This variety should appeal to every lover of flowers on account of its delicate color.

GAITY.

A superb new decorative, vivid scarlet, heavily marked with little white. It is a variety far above the average of fancy type. It proved an excellent cut flower variety during the past season. Stems are long and flowers are produced freely.

ARABELLA (SHOW).

Large, perfect flower. Lemon shading to primrose on tips.

QUEEN MESSENGER (SHOW DAHLIA).

Large, clear, pink quilled petals, large flowering.

LINDEURST.

One of the best. Bright scarlet; perfect flowers with long stems, borne well above the foliage.

JEAN CHARMET.

A new decorative variety of exquisite form and color. Flowers are very large and stems exceptionally long. Color a shading of pink lilac, each petal edged with white. Very fine.

FLORAL PARK JEWEL.

Rich purple red, tipped and striped with white. Sometimes solid color.

A. D. LIVONI.

Beautiful clear pink, quilled petals. The best pink show variety. A splendid cut flower. (Show.)

QUEEN VICTORIA.

A fine show variety, with quilled petals and handsomely trimmed flowers. Tall grower. Canary yellow. (Show.)

OATS.

We offer you several varieties of SEED OATS, and make you prices on RECLEANED Select and Graded Stock. Do not think that you can buy common oats on the market and get Selected Oats for seed purposes. Genuine Red Texas, selected, per bu. 85c Red Texas Oats, Kansas grown, per bu. 80c Nebraska White Oats, Nebraska grown, per bu. 85c

Indispensable on the farm for early feeding and ensilage purposes as well as table use. Under favorable weather yields 100 bushels to the acre. In introducing the NEW VARIETY OF ROASTING EAR CORN, we do not hesitate to say it is one of the very earliest now grown, and you can get corn for your table in about 65 days from planting. While this corn is not a true sweet corn, you can hardly tell the difference. It is far ahead of the Early Adams varieties. The ears are from 8 to 10 inches long and have two to three ears to the stalk. The picture here shown is a true photograph of an ideal ear of this GRAND NEW CORN. We have only a limited amount of this seed corn for sale this season, so send us your order at once. Price per half pound, 10c; 1 lb., 15c; 2 lbs., 30c. Postpaid. Price per bushel on application.

Seed Corn of Highest Quality

SPECIAL NOTICE.

Write for free sample and prices on Seed Corn.

GOLDEN BEAUTY.

The ears ore of perfect shape, with from ten to fourteen straight rows of bright golden yellow grain, remarkable in size and filled out completely to the extreme end of the cob.

BLOODY BUTCHER (White Cap).

This corn is much sought after by the farmer who finds it necessary to replant his corn in June or July. Is a good yielder, making as high as 65 bushels to the acre. Color deep cherry red with white cap.

IMPROVED INDIAN SQUAW CORN.

Holds more records for wonderful performances under difficult conditions than any corn ever grown. It is an extremely early variety, maturing in 85 days. Perhaps the most wonderful quality of this corn is its power to resist drouth, and it does equally as well in wet seasons. Ears large, ten to twelve inches, and two on every stalk. The kernels are of different colors, blue, red and white, giving the ears a curious beautiful mottled appearance. Order early. We always sell out.

REID'S YELLOW DENT.

Color deep yellow, with lighter cap. Grain very deep, closely packed; butts and tips almost entirely covered over. Slightly rough, with grains dented on top.

CALICO OR STRAWBERRY CORN.

This early variety of corn is a great yielder, produces a large ear of red, white and yellow striped grains.

IOWA GOLD MINE.

A handsomely early corn, ripening a few days after our improved Leaming; ears are of good size, even and uniform in shape; cob small with very deep grains of bright golden color. Matures in 100 days.

MUSHERUSH (OR SHAWNEE WHITE).

One of the largest eared white corn ever grown. grains dented, broad and fairly smooth, ears ten to fourteen inches long, matures in 110 to 120 days. A drouth resister, well adapted to upland, as well as bottom.

BOONE COUNTY WHITE.

Ears well filled out at both ends, cylindrical. 9 to 11 inches long, avering 20 rows. Grain very deep, a little rough. Cobs white, of medium size. Boone County is a show corn, and has carried off many premiums offered at corn contests--state and county fairs. Matures in 110 to 120 days.

IOWA SILVER MINE.

DESCRIPTION. Silver Mine is deep grained, pure white, rough topped with small white cob. Ears 9 to 12 inches long, 16 to 20 rows of pure white kernels, solidly set on ears, well filled at butt and tip. The small cob dries out rapidly and can be marketed early. This corn is a drouth resister. Frequently bearing two ears weighing one to one and one-half pounds each. Matures in 100 days.

IMPROVED ST. CHARLES WHITE (Red Cob)

Pure white with red cob, ears are large, moderately rough, deep grain. Stalks grow very leafy and heavy, and will produce enormous yields of corn. Matures in 100 days.

SQUAW CORN.

This is the old fashioned flint corn, that is known by every one the country over as Squaw Corn. Matures in 75 days, has two to four large ears to the stalk, kernels blue and white, especially recommended where an early corn is needed for early stock feeding and for ensilage purposes. It can't be beat. Give this corn a trial and you will always have corn.

POULTRY DEPARTMENT

We wish to say that we have many customers who are breeders of High Class FANCY POULTRY, and we are offering you some of the best bargains in eggs for early hatching. We also offer you the stock of these varieties herein quoted. If in the market for anything in poultry and eggs, write us. Our stock that we have listed is from PRIZE WINNING BIRDS. Our stock will be shipped direct from the breeders. We guarantee 12 eggs out of 15 to hatch or we will replace the setting at half price. We offer you as follows. Let us know what you want.

New Improved Tom Watson Water-Melon Seed

For more than twenty-five years, we have specialized in MELONS and have introduced many of the present day types, but this year, we are in position to furnish two of the **FINEST TYPES** of **TOM WATSON MELON** ever offered the melon growers of America—the **IVORY WHITE SEEDED TOM WATSON** and the **COFFEE COLOR SEEDED TOM WATSON**.

These seeds have been produced after countless experiments, breeding and cross breeding the **TOM WATSON** with the **SOUTH AMERICAN CHILIEAN MELON**, which has resulted in a large, perfectly formed melon, with the firm rind of the **CHILIEAN MELON**, making a first class shipper which will hold up well, combining with and retaining the sweetness and other wonderful qualities of the present **TOM WATSON MELON**.

The **IVORY WHITE SEEDED** melon matures two weeks ahead of the **COFFEE COLOR SEEDED MELON**. The white seeded melons will be perfect, free from necks, very sweet, excellent shippers and the seeds will be large **IVORY WHITE** and fine shape.

The **COFFEE COLOR SEEDED** improved **TOM WATSON** is, without doubt, the finest seed ever offered melon growers and will produce melons of unequalled quality and size.

We have been to great expense in perfecting these two new types of seeds, but our prices will be reasonable. In order that you may see and judge of the fine quality of these new improved seeds, we will gladly send you a small sample **FREE OF CHARGE** upon request. After you have received the sample, compared and noted the difference in its color, size and shape with other seeds, send us your order.

WE GUARANTEE THE SEED TO BE AS REPRESENTED and will refund your money if not entirely satisfactory.

We have only about 3000 pounds of this seed for this season! **GET YOUR ORDER IN EARLY.**
